

A Thousand And One Nights

Yesterday is yesterday
Time to say goodbye
Losing hearts are gone astray – don't cry
Sailing ships to history
On the wings of destiny
And the night comes falling from the sky
The oriental rain
Told me love will ease my pain
And I know you feel the same

A thousand and one nights
It's a fairytale when you're by my side
A thousand and one nights
I promise my love is your delight

A thousand and one nights – we were in heaven
A thousand and one nights – a mystery
A thousand and one dreams – it's five, two, seven
Love is the key – Open Sesame
A thousand and one nights

Yesterday is yesterday
Time will come and go
Memories will fade away – you know
Love is like a fantasy
Lonely tears run endlessly
When you lose your greatest dream – oh no
The oriental moon
Told me love is coming soon
And my heart will be in tune
