

Go Systems Go

Last time moved through nights and searched for our desire
Oh we were restless lonesome and we felt so blue
The longing seemed so endless it did not let us go
Baby where is your heat in the summer night, in the night?

Go systems go, back into the radio
The sweetest place that we all know
Go systems go it's all about the promised land
you know that we could lend a hand

Go now systems go, back into the radio,
Go now systems go, sweetest place that we do know
Go now systems your heart is still on fire

There is a feeling in our hearts that lives forever
And these emotions tell the flame burns more and more
The dance will light the fire - and in the nightly heat
Waiting for a time when we'll come back again - and again

Go systems go, back into the radio
The sweetest place that we all know
Go systems go it's all about the promised land
you know that we could lend a hand

Go now systems go, back into the radio,
Go now systems go, sweetest place that we do know
Go now systems your heart is still on fire
