

## Sarah's Dream

The sunshine in her eyes – she's looking like a child  
Love is a melody – her kisses are so wild  
I can't wait forever  
Can we stay together till the end of time  
My love will never die  
We're dancing heart to heart – oh it's the night of love  
The magic of her charm – I'll never get enough  
Her heart's beating stronger  
I can't wait no longer  
You're my destiny  
My sweetest memory  
Come on stay with me

Live a little dream my baby - fall in love  
Tell me that your love will never end  
Oh I'm living Sarah's dream of summer, wind and spanish dancing  
Sarah's summer love romance

I promised you my heart – you tell me night and day  
The passion of this time – will never pass away  
I can't wait forever  
Can't we stay together till the end of time  
My love will never die  
A neverending dance – she's like a mystery  
Her fire like the sun – burns till eternity  
Her heart's beating stronger  
I can't wait no longer  
You're my destiny  
My sweetest memory  
Come on stay with me
