

System In Blue

Baby day by day
You're my memory
I'm missing you
Rainy nights in May
Midnight jealousy
Don't make me blue
My love is gone forever
Tell me we can stay together
It's not easy, baby
Your love will drive me crazy

It's a system in blue
Oh tonight I'm missing you
Baby Destiny
It's time to come back to me
My magic symphony
Baby my love is for you
It's a system in blue
and whatever they will do
Baby Destiny
Tonight you'll be next to me
Oh it's like ecstasy
My baby of dreams love me, too

Baby night by night
1000 words to say
No mystery
Miss you by my side
Love is gone away
Oh can't you see
Lonely hearts – a deep emotion
Tell me your love is devotion
It's not easy, baby
Your love will drive me crazy
