

Aquarius

As time goes by the thoughts would fly to love and peace
We`re lost in dreams, sweet memories,
A thousand plans and a sunny sky no question why

A free way out wide open doors an endless plane
Fair promises, oracles tell the same
We`re heading for the golden age of Aquarius

Go go down to the ground and make up your mind
A treasure you will find

We would beat all the odds
Bite the bullets swallow toads
Just a band on the run
New horizons hit the sun
Jumped on the stage rocked the shows
Gave it all and took the blows
After all standing tall
Always get up when we fall

Wait for the age of Aquarius
And the people share the love of
Aquarius

And now the days have come for us to celebrate
The party`s on, don`t hesitate
Get on your way cos we are going to dance love never ends

Go go down to the ground and make up your mind
A treasure you will find

Wait for the age of Aquarius
And the people share the love of
Aquarius
