

## Back in blue

He was like thunder you know his name  
His leaving sure left us all insane  
The voice was crisp and a shining light  
His groove was shaky and his beat so tight  
When starts to sing the thrill has come  
All bad emotions they were on the run  
So when he left we all lost a friend  
We couldn't take it - we could never take it

Aaaaaa Back - back in blue  
we're back in blue....

Now what you see - is what you get -  
and here we are And we still love that  
Now what we feel, is that he's gone -  
but still alive - because his songs are sung

everywhere around the world, young and old  
So even boys and girls  
So let us join and come along, and let us prove  
to turn the systems on - we're

Aaaaaa we're Back - back in blue  
we're back in blue....  
Ououo

Now what you see - is what you get -  
and here we are And we still love that  
Now what we feel is that he's gone -  
but still alive - because his songs are sung ...

Aaaaaa we're Back - back in blue  
we're back in blue...
