

## Children Of The Night

You look up to the sky  
There is a rainbow in the sunshine  
Birds are flying so high  
I know you are always on my mind  
Girl why are you so shy  
Walk through the streets and feel so helpless?  
Heart and soul loose control  
This tears will make you blind  
Desperation on your way  
Babe time will show sweet love can grow  
Baby you will take my breath away

'Cause we are children of the night  
In my dream I feel delight  
I melt away in sweet devotion  
Hearts they will survive  
Our love is right  
Yes we are children of the night  
I see the fear behind your smile  
And magic of your deep emotion  
Let the shadows from your mind this time

Yes we are children of the night  
In my dream I know it's right  
Melt together in sweet devotion  
We are children of the night  
Please believe me time is on your side  
Children of the night

Babe why you lost this race  
On this bad way without a future  
This tears in your sweet face  
Since you have paid this price of love  
Indeed he told you lies  
Turned this relationship to hard fight  
Dream of you, your so blue  
I don't hurt your heart  
Memories creep in your mind  
Babe try again and understand  
Broken wings of love fly away

'Cause we are children of the night  
In my dream I feel delight  
I melt away in sweet devotion  
Hearts they will survive  
Our love is right  
Yes we are children of the night  
I see the fear behind your smile  
And magic of your deep emotion  
Let the shadows from your mind this time

Yes we are children of the night  
In my dream I know it's right  
Melt together in sweet devotion  
We are children of the night  
Please believe me time is on your side

Yes we are children of the night  
I see the fear behind your smile  
And magic of your deep emotion  
Let the shadows from your mind this time

Yes we are children of the night  
In my dream I know it's right  
Melt together in sweet devotion  
We are children of the night  
Please believe me time is on your side

Yes we are children of the night  
In my dream I know it's right  
Melt together in sweet devotion  
We are children of the night  
Please believe me time is on your side

Children of the..., children of the night
