

## Only For You

Sometimes I listen to the rain  
Wait for time to ease my pain  
It's written in the stars – whatever comes and what will be  
Love is our destiny  
And tonight I dream this dream – and I see  
I am lonely and alone  
Only you could bring me up to the sky  
High where angels fly  
Come to me

Only for you –  
Tonight I sing this melody  
You are the only one  
We can't go wrong  
You make my dreams come true  
Only for you –  
My love could be eternally  
If you still believe in me  
This is my song - I sing for you

It's hard to find the words to say  
You could dry my tears away  
It's written in the wind – whatever comes and what we are  
Love is like a shining star  
And sometimes I dream this dream – what could be  
I am lonely and alone  
Only love will bring me up when I fall  
When I'm feeling small  
Come to me  
Please come to me

Time will show – you can find your love forever  
And someday I know – my dreams come true

Only for you – Tonight we sing this melody  
You are the only one  
This is your song  
We make your dreams come true  
Only for you –  
My love could be eternally  
If you still believe in me  
This is my song – I sing for you
