

Shadows Of Love

I walked down a road in the rain
You told me it's over again
These moments with you, my love
Are fading away
You were my sweet majesty
I miss you whatever will be
Without you I'll lose all I have, I love you
From here to eternity, girl

Stranded in the shadows of love
Oh Lady was it really enough
Don't tell me it's the end of your love – oh no
Stranded in the shadows of you
Oh Lady tell me what can I do
When I feel it's the end of your love – oh no
Oh Baby don't tell me – don't tell me
Your heart is falling from the sky
Oh my love will be forever
Baby don't leave me – come with me
I tell you it's my real feeling – real feeling

The colours of love turns to grey
My memories are slipping away
The summer with you, my love
Was born in the wind
You are my love, ma cherie
I need you whatever will be
Oh Lady my heart is an ocean of tears
Forever and ever, my love
