

## Take it like a man

Even in the darkest night a voice is calling me  
Burning feelings everywhere we were falling on our knees  
Deamons call and crawl around the devils on the rise  
He tries to take our souls away - so strong is his advice..

But you take it like a man - and you fight for love and glory  
you know that it's not easy babe, hard to understand  
Yes you take it like a man - all your trust and you don't worry  
Peace the sign and love's the answer, till whatever end

You will take it like a man you will never give up  
take it like a man - peace and glory  
take it like a man you will never give up - tonight

You will take it like a man you will never give up  
take it like a man - no sleep till glory  
take it like a man you will never give up - all your life

Oh the deamons gambler he played a game you could never win  
But with all your love and heart you took the cards and you called in  
The deamon's eyes were open wide as he saw what you have done  
He never could believe - that this time love has won

So you take it like a man - and you fight for love and glory  
you know that it's not easy babe hard to understand  
Oh you take it like a man - all your trust and you don't worry  
Peace the sign and love's the answer till whatever end

You will take it like a man you will never give up  
take it like a man - peace and glory  
take it like a man you will never give up - tonight  
Ha ha ha ha

You will take it like a man you will never give up  
take it like a man - no sleep till glory  
take it like a man you will never give up - all your life  
Solo

But you take it like a man - and you fight for love and glory  
you know that it's not easy babe hard to understand  
Yes you take it like a man - all your trust and you don't worry  
Peace the sign and love's the answer till whatever end

You will take it like a man you will never give up  
take it like a man - peace and glory  
take it like a man you will never give up - tonight

You will take it like a man you will never give up  
take it like a man - no sleep till glory  
take it like a man you will never give up - all your life
