

And in the end

A time has come to realize your dreams
The world might close forever now it seems
And if we forget to do
the things we should do we're are lost

So we may live today and forever in our thoughts
and we dream all dreams till now
never changing
To forgive our lonelines
If we ever find a way back home
to feel our love

And in the end we will not cry many tears
We won't forget that we have had many years
And our love - you feel it's still alive
And everything will be allright

The time has come to realize our love
The road is short but stoney not at all
And to our heart belongs
the life we live till the end

So we may dream today
forever in our thoughts
that we lived a life of peace
never changing
we forgive our lonelines
If we ever find a way back home
to feel our hearts

And in the end we will not cry many tears
We won't forget that we have had many years
And our love - you see it's STILL A LIVE
And it's gonna be allright

And in the end
So we may dream today
forever in our thoughts
that we lived a life of peace
never changing
TO forgive our lonelines
If we ever find a way back home
to feel our hearts

And in the end we will not cry many tears
We won't forget to feel that we're here
And our love - see feel it's LIKE THE SKY
And everything will be allright
