

Christmas In Blue

Knowing that the world is saved in time
No more wars and no more crimes
Believing that we left all bad behind -
On christmas time

With love inside our hearts we set the sails
To bring peace deep inside of hell
Knowing that the world could be all right
On christmas time

We know it just will take one minute -
That we run away from ourselves
But let us be ourselves -
Nobody else

During this minute we have seen
That the world is full of dreams
Don't run away -
Don't run away from your dreams

Oh father forgive them,
For they know not what they're doing.
I need you on christmas time
Ohoho

I need you, to be here -
So peaceful - never ending
I will dare on christmas time

Knowing that the world is saved on time
No more wars and no more crimes
Believing that we left all bad behind -
On christmas time

Changing our feel from fear to hope
No more wars we'll free our souls
When we do have love inside our minds -
On christmas time

Changing, believing,
Your feeling's what we're needing
We're running to be on time

I saw you - you're a wonder
Pure love is floating from yonder
Pure loving on christmas time
