

If you go

We escape from the dark, on a way towards light
Well our time is yet to come
Oh we're living our dream, even if it is hard
Been a long time on the run
The chain is undone, and freedom so close
like it's never been before
So we'll walk till the end, the way that we'll go
it leads us to distant shores

The time is now or never - nothing left to be undone
Well we want to reach you all - we do no wrong

If you go
there will be no show - nothing left for us say
Let us know - if you want to go
But we want you here to stay
Time passes by - and if you'll leave - it'll be all right
But our music will die - 'cause you are all
You're all our lives

So this what you hear, and our message is clear,
We need you here and now
We have lost one voice but still got the choice
Our music is quite clear

The time is now or never - nothing left to be done
Well we want to reach you all - we're movin' on

If you go
there will be no show - nothing left for us say
Let us know - if you want to go
But we want you here to stay
Time passes by - and if you'll leave - it'll be all right
But our music won't die - 'cause you are all
You're all our lives

You're all our music is for, what else can we do
We're singing, we're writing, we dream just for you

If you go
there will be no show - nothing left for us say
Let us know - if you want to go
But we want you here to stay
Time passes by - and if you'll leave - it'll be allright
But our music won't die - 'cause you are all
You're all our lives

My papa said you can't go wrong if you gonna try a brand new song
My papa said you can't go wrong if you gonna try to move on

Time passes by - and if you'll leave - it'll be all right
But our music won't die - 'cause you are all
You're all our lives
