

Lady Ocean

All I know - is that you here
A golden dream - that disappeared
A shining light - throughout the stars
You are my love

I had a feel - you went away
I could't make it - through the day
But time went on - and here we are
You are a star

Now I feel - the world so blue -
I am in love - and so are you
Let us be - and join the feel
Love is sweet and real

Here we go - Talking forever - hear the message loud and clear
Here we go - it's now or ever - you are shining without fear
Here we go

Oh I got you - you're my Lady Ocean
Oh I got you - loved your mixed emotions
Oh I got you - you're my Lady Ocean
Wanna be your lover wanna feel the locomotion

Dup Dup Dup...

Oh I can see - I close my eyes
I know your way - it makes me smile
Kissing you - a feel of love
Where are we now

Now I feel - my life so blue -
I am in love - and so are you
Let us be - and join the feel
Purest love is real

Here we go - now or never - hear the message loud and clear
Here we go - it's now or never - you are shining without fear
Here we go

Oh I got you - you're my Lady Ocean
Oh I got you - love your mixed emotions
Oh I got you - you're my Lady Ocean
Wanna be your lover wanna be your locomotion

Oh I got you - Oh I got you
Oh I got you - Oh I got you
Oh I got you - Oh I got you
Wanna be your lover wanna be your locomotion
