

My Mystery

The times were hard
All lost in danger
A broken heart
A lonely stranger
I'll wait till the dawn
The morning will bring back the light
The wind was cold
The rain grew stronger
I couldn't take
This pain no longer
I'll never give up
Keep holding on to my dream

So sad that you are away
So far away from my heart
I keep on longing and pray
Give us a chance
For a start
Cause you are my lady

My mystery you are my destiny
Live in a dream
You will come back to me
My mystery you are my majesty
Our love will last
Till eternity

All alone
And still I wonder
The world around me
Could go under
All sweet memories
Will linger on in my mind
