

Out Of The Blue

Out of the blue – it's a miracle of love
Will I see you again
I'll never forget the moments of love – oh no no no

Nights in paradise
You left the rainbow of emotion
Love has million eyes
Oh I'm feeling like a child
On a ship of fools
I never trust the silent ocean
Life can be so cruel
I miss the way you smile
Sail my love through heavy weather
Mend my broken dream
Don't lose your deep desire
In the fire storm

A tragedy – it's a tragedy
Babe I lose my heart and sanity
A tragedy – come back to me
Babe I'll love you 'til eternity
Every day – every night – when I cried
I was down – Babe it can't be denied
And all of a sudden you came back tonight
The wheel of time is turning
Out of the blue – could it be true
Baby this time we'll stay together
Out of the blue – I promised you
All of my love will last forever, girl

Early morning sky
I'm walking down the streets of sorrow
Only God knows why
Will I ever lose my laugh
Melancholy day
Just crazy guys will stay tomorrow
Frozen tears in May
One summer ain't enough
Sailing ships will fly to heaven
Take my love again
Don't lose your deep desire
In the fire storm
