

Point Of No Return

Stop – to tell me lies
You're a devil in disguise
Baby it's all over now
Tonight – you'll be the one
I know you miss me when I'm gone
Baby just time will show
Step by step – you break my heart
Oh it's tearing me apart
Baby you make me blue
Tonight – all lights are green
I wanna live my greatest dream
And there is no place for you
A brandnew start
My life goes on
Nobody breaks my heart

And that's the point of no return
Tonight it's time to say "It's not okay"
Cause we cannot stay together – now and never
I'm not your fool forever
It's over and over again

And that's the point of no return
Tonight it's time to say "It's over now"
Cause your love is like the ocean – just in motion
I lose my heart's devotion
It's over and over again

Stop – I'm going soon
when my heart is out of tune
Baby I feel so sad
Tonight – you're hot and sweet
Tell me where's your body heat?
Baby don't drive me mad
Face to face – I'll say goodbye
It's too late when feelings die
Baby I'll make it right
Tonight – I leave your life
Live your love and you 'll survive
When the time is on your side
A brandnew start
My life goes on
Nobody breaks my heart

And that's the point of no return
Tonight it's time to say "It's not okay"
Cause we cannot stay together – now and never
I'm not your fool forever
It's over and over again

My baby it's the point of no return
A broken flame of love will never burn
We have no tomorrow
Set me free – there's no return to me
