

Shangri-La

It's a secret place
Near India
Oh some people call it heaven
It's a saving grace
Unknown and far
Away from our world
It's an old, old tale
A friend told me
Oh he said it's like a wonder
When you leave your jail
You'll find the key
For another life to live
And I left the road to loneliness
I listened to my heart
The time has come
I never missed my yesterday
Believe me

Shangri-La
I'm a passenger
To the last days of love in Eden
Shangri-La
Is where we are
It's a land of the rising sun
Shangri-La
Come and feel your heart
Babe I never tell you lies
Shangri-La
Come and try a start
It's the last way to paradise

It's a mystery
What love can do
If you find your way to heaven
Baby you can see
Dreams will be true
If you find your place in life
It's no long, long way to sweet caress
If you will change your mind
The time will come
You'll never miss your yesterday
Believe me
