

There's no heart

Deep in her heart she was always feeling blue
All of her thoughts she was thinking about you - only you
Dark were the times when you left her all alone
Now you closed the door - didn't answer on the phone, you got her wrong

Will she ever feel - true love inside her heart
Will there ever be - a start

There's no heart - there's no soul
When you left - she let you go
There's no heart there's no soul
not for you
There's no heart - there's no soul
And she's losing her control
There's no heart - there's no soul
for you tonight

She travelled the world oh to leave her fear behind
Still the young girl but she opened up her mind - oh so kind

But will she ever feel - true love inside her heart
Will she ever be - alive

(When we love each other what will we discover)

There's no heart - there's no soul
When you left - she let you go
There's no heart there's no soul
not for you
There's no heart - there's no soul
And she's losing her control
There's no heart - there's no soul
for you tonight

(When we love each other what will we discover)
