

Two Faces

Stop some people say
This man has no fun
But he changed his way
When the day has gone
Friday night – a crazy fever
And he got George Clooney's heart
No one's fool
Charmin'n cool
He broke each rule

He's like Jekyll & Hyde – he has two faces
It's another night – when he played a role
In the discolight – he won all races
He kissed the girls and they're running mad
He's like Jekyll & Hyde – he's a gentleman
Summer party nights – and he kissed again
To the morning light – Babe he lived for joy
On the other side – he's a lonely boy
He's like Jekyll & Hyde
This man has two different faces

Stop the night has come
And he left his town
Boys were on the run
And they're feeling down
Stupid guy or womanizer
This man has lost his simple mind
No one's fool
Charmin'n cool
He broke each rule
