

Voodoo Queen

In the heart of the jungle – hear the beat of the night
The flame of obsession – feel her fire inside
The midday sun was hot – fever in your head
I know she will find a white man
She's lying – she's killing – she drives you mad
She's so cool – so cool

Don't go back to the Voodoo Queen –
it's like a nightmare scene
When you fall in love – it's all over
Don't go back to the Voodoo Queen –
the sweetest jungle dream
She will hold you tight – when you try to flee tonight

Voodoo Queen –
she is dancing when the sky is green
Open up your eyes and you stop to dream
Come I tell you what I mean
You'll lose - it's over – over

And the drums of cruel passion – playing deep in her soul
It's the spirit of illusion – love is out of control
Hear the voice – hear the cry – run and take your chance
I know she will catch you again
You're dreaming – you're dying – when you're in trance
She's so cool – so cool

Don't go back to the Voodoo Queen –
it's like a nightmare scene
When you fall in love – it's all over
Don't go back to the Voodoo Queen –
the sweetest jungle dream
She will hold you tight – when you try to flee tonight

Voodoo Queen –
she is dancing when the sky is green
Open up your eyes and you stop to dream
Come I tell you what I mean
You'll lose - it's over – over
Voodoo Queen –
and your life is running out of steam
It's like heaven and hell – you are in between
Stop forget the Voodoo Queen
You'll lose - it's over – all over
